Design has the ability to leave an impact on others. With a goal to inspire the world, I strive to push the boundaries and exercise my creativity and curiosity through design. I am an eclectic person, unique in my own ways and I can design anything you ask me to. I am extremely efficient with design and have the ability to learn quickly. Currently I manage print and large format graphics but I am also well versed with front end web design.

## EDUCATION

### **BFA, Graphic Design**

San Jose State University, San Jose, CA, 2012.12

### **International Exchange Program and Workshop**

Asia (Japan, South Korea, and Hong Kong) 2013.06

A three week program studying graphic design in Asia. Included university and studio visits, workshops, museums, and lectures with well known designers within the industry.

## EXPERIENCE

### **Dolphin Graphics**

Graphic Designer 2013-Present

- Research information to come up with a concept design.
- Develop brand identities and websites to cater to clients specific needs.
- Design graphics for print collateral, promotional products, and apparel.
- Design large formatted graphics for interior and exterior signage, banners, vehicles, and wall murals.
- Prepare and submit visual presentations by designing artwork and proof layouts for clients.
- Prepare different types of finalized files for print, web, or whatever the related job calls for.

### **eMarketing VS**

Editor / Publisher 2011-2013
